

# CHATCHANAN PANYAPRASIRTKIT

changnoi2547@gmail.com | 096-227-6090 | Khon Kaen **Date of Birth:** Feb 16, 2004

**Nationality:** Thai

**Address:** 428, Moo 15, Ban Phai Thong, Lhub Subdistrict, Mueang Kalasin District, Kalasin Province

## OBJECTIVE

A highly motivated and detail-oriented Fullstack Developer and DevOps Engineer with experience in building and optimizing scalable web applications and managing cloud infrastructure. Seeking a challenging position where I can leverage my skills in full-stack development, CI/CD pipelines, containerization, and infrastructure automation to contribute to a dynamic team. Eager to apply my expertise in languages like Golang and various technologies, as well as my experience with DevOps practices, to drive innovation and support business growth.

## SKILLS

|                            |                                                                                                                                                        |
|----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Programming:</b>        | Go, Python, Java, Dart, Lua, C++, Assembly, HTML/CSS/JS                                                                                                |
| <b>Technologies:</b>       | Flutter, Svelte, Next.js, Fiber, Gin, Redis, SQL/NoSQL, JSON/JWT, Socket.io, MQTT, gRPC, MinIO, SlipOK, Omise, Vdocypher, OAuth/LDAP/SSO, Zitadel, KIE |
| <b>DevOps &amp; Tools:</b> | Docker, Linux, Git, K6, Jenkins, Traefik, Nginx, Vercel, Firebase, Microsoft Azure, Digital Ocean                                                      |
| <b>Productivity:</b>       | Trello, Lark, Clickup, Discord, Draw.io, Huly, Microsoft Team, Generative AI, Claude code                                                              |
| <b>IOT:</b>                | Arduino, Raspberry Pi                                                                                                                                  |

## EXPERIENCE

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |                     |

## HONORS & AWARDS

**1st Runner-Up, TESA Top Gun 2025 Competition:**  
Top Score in Visualization & AI Drone Base.

**Participant, TESA Top Gun 2024 Competition**  
**Participant, Hackathon KKU X Origin Competition**  
**Developer, Healthy Life Season 5 System Development**

**EDUCATION**
