

CHATCHANAN PANYAPRASIRTKIT

changnoi2547@gmail.com | 096-227-6090 | Khon Kaen **Date of Birth:** Feb 16, 2004
Nationality: Thai
Address: 428, Moo 15, Ban Phai Thong, Lhub Subdistrict, Mueang Kalasin District, Kalasin Province

OBJECTIVE

A highly motivated and detail-oriented Backend Developer with experience in building and optimizing scalable web applications. Seeking a challenging position where I can leverage my skills in API development, database management, and cloud infrastructure to contribute to a dynamic team and deliver robust backend solutions. Eager to apply my expertise in languages like Golang, as well as my experience with services and containerization, to drive innovation and support business growth.

SKILLS

Programming:	Go, Python, Java, Dart, Lua, C++, Assembly, HTML/CSS/JS
Technologies:	Flutter, Svelte, Next.js, Fiber, Gin, Redis, SQL/NoSQL, JSON/JWT, Socket.io, MQTT, gRPC, MinIO, SlipOK, OAuth/LDAP/SSO, Zitadel
DevOps & Tools:	Docker, Linux, Git, K6, Jenkins, Traefik, Nginx, Vercel, Firebase, Google Cloud Console
Productivity:	Trello, Lark, Clickup, Discord, Draw.io, Huly, Generative AI
IOT:	Arduino, Raspberry Pi

EXPERIENCE

Backend Developer / Zercle Technology Co., Ltd.	Apr 2024 – Present
- Implemented authentication and authorization using JWT and OAuth. - Built RESTful APIs using Golang and Go-fiber framework. - Designed and optimized database schemas. - Integrated third-party services and APIs to enhance the system functionality.	
Product Support Engineer Trainee / Seagate Technology	Jun 2025 – Oct 2025
- Developed full-stack web applications using Next.js and Svelte for the frontend, delivering intuitive user interfaces. - Built scalable backend services and RESTful APIs using Golang to support product engineering workflows. - Managed deployment pipelines and container orchestration using Rancher, and maintained Windows Server infrastructure. - Contributed to the entire software development lifecycle, from design and implementation to deployment and support.	
Fullstack Developer Trainee / ARZIO CO., LTD.	Apr 2024 – Jun 2024
- Connected to smart contracts using Hardhat for applications on Ethereum. - Developed RESTful APIs using Hono, Golang, and Go-fiber framework. - Built web applications using Svelte and TypeScript. - Performed code reviews and provided feedback to team members for continuous improvement. - Participated in code reviews and collaborated in Agile/Scrum environments, contributing to sprint planning, daily standups, and retrospectives.	
Backend Developer Trainee / T.C.C TECHNOLOGY CO., LTD.	May 2023 – Jun 2023
- Built RESTful APIs using Golang and Go-fiber framework. - Developed and implemented JWT authentication for secure API endpoints. - Applied unit testing and integration testing for backend services, ensuring high code quality and reliability. - Performed code reviews and provided feedback to team members for continuous improvement. - Participated in code reviews and collaborated in Agile/Scrum environments, contributing to sprint planning, daily standups, and retrospectives.	

HONORS & AWARDS

- 1st Runner-Up, TESA Top Gun 2025 Competition:**
Top Score in Visualization & AI Drone Base.
- Participant, TESA Top Gun 2024 Competition**
- Participant, Hackathon KKU X Origin Competition**
- Developer, Healthy Life Season 5 System Development**

EDUCATION

Bachelor of Engineering in Computer Engineering Khon Kaen University, Thailand 123 Mittraphap Road, Nai Mueang Subdistrict, Mueang Khon Kaen District, Khon Kaen Province, 40002	May 2022 – Present
